Education

- **Wuhan University, Multi-Spectral Vision Processing Lab** — *Wuhan, China*
  M.Eng in Electronic Information, supervised by Prof. Jiayi Ma and Prof. Yong Ma — *Sept 2024 - Present*
  - Selected Courses: Optimization Theory and Method, Stochastic Processes, Modern Circuit Layout
  - GPA: 3.81/4.00

- **Central South University, School of Electronic Information** — *Changsha, China*
  B.Sc in Electronic Information Science and Technology — *Sept 2020 - Jun 2024*
  - Selected Courses: Algorithms and Data Structures, Signals and Systems, Digital Signal Processing
  - GPA: 91.25/100, ranking top 7% out of 150

Research Interests

- Research Focus: Geometric Deep Learning, 3D Shape Matching
- Areas of Interest: 3D Vision, 3D Generation, Graphics

Publications

1. **Multi-Shape Matching with Cycle Consistency Basis via Functional Maps**
   Yifan Xia, **Tianwei Ye***, Huabing Zhou, Zhongyuan Wang, Jiayi Ma*
   Proc. AAAI Conference on Artificial Intelligence (AAAI), 2025
   Introduce a concise cycle consistency formulation via directed graph optimization

2. **LoMatch: Geometrically Consistent Non-rigid Shape Matching via Neighborhoods Preservation**
   ***Tianwei Ye**, Xiaoguang Mei, Yifan Xia, Fan Fan, Jun Huang, Jiayi Ma*
   Submitted to Proc. Neural Information Processing Systems (NeurIPS), 2025 (Under Review)
   Propose a novel feature-based perspective for geometrically consistency shape matching

3. **Functional Deformation Learning for Unsupervised Spectral Shape Matching**
   *Yifan Xia, **Tianwei Ye**, Jun Huang, Fan Fan, Xiaoguang Mei, Jiayi Ma*
   Submitted to Proc. Neural Information Processing Systems (NeurIPS), 2025 (Under Review)
   Pioneer the integration of smoothness-based functional deformation with unsupervised learning

Projects

- **Ancient Glass Composition Analysis and Classification with Intelligent Learning**
  China Undergraduate Mathematical Contest in Modeling, First Prize in Hunan Province — Oct 2022
  - Constructed classification models for ancient glass weathering analysis using logistic regression and random forest
  - Employed self-organizing maps to explore compositional clustering and anomaly patterns

Skills

- **Programming:** Python, C/C++, Matlab, LaTeX
- **Deep Learning Framework:** PyTorch
- **Language:** English (IELTS 6.5; CET-4 598; CET-6 493), Chinese (Native)

Awards

- **Outstanding Graduates (Awarded to the top 5% of graduates)**
  Central South University
- **First-Class Scholarship**
  Central South University
