Research Interests

I have a broad interest in computer vision and graphics, particularly in 3D vision. I am currently researching 3D shape matching with deep learning and optimization techniques.

Education

- **Wuhan University, Multi-Spectral Vision Processing Lab** Sep 2024 - Present
M.Eng in Electronic Information, advised by Prof. [Jiayi Ma](#) GPA: 3.83/4.00
- **Central South University, School of Electronic Information** Sep 2020 - Jun 2024
B.Sc in Electronic Information Science and Technology GPA: 91.25/100

Publications

1. **Multi-Shape Matching with Cycle Consistency Basis via Functional Maps**
Yifan Xia, Tianwei Ye*, Huabing Zhou, Zhongyuan Wang, Jiayi Ma*
Proc. AAAI Conference on Artificial Intelligence (AAAI), 2025
2. **Local Neighborhood Preservation for Unsupervised Non-rigid Shape Matching (Submitted)**
Tianwei Ye, Xiaoguang Mei, Yifan Xia, Fan Fan, Jun Huang, Jiayi Ma
Proc. International Conference on Computer Vision (ICCV), 2025
3. **Functional Deformation Learning for Robust Spectral Shape Matching (Submitted)**
Yifan Xia, Tianwei Ye, Jun Huang, Fan Fan, Xiaoguang Mei, Jiayi Ma
Proc. International Conference on Computer Vision (ICCV), 2025

Projects

- **UAV-Based Hyperspectral Imaging Technology for Precise Detection of Marine Pollution** Ongoing
Supervised by Prof. [Xiaoguang Mei](#)
 - *Background:* Frequent marine pollution incidents in the nearshore waters of the Greater Bay Area reveal that RGB and multispectral monitoring techniques cannot precisely assess pollutants.
 - *Expected Contribution:* This ongoing project is intended to establish a novel demonstration application for early detection and parameter inversion of typical marine pollutants.

Skills

- **Programming:** Python, C/C++, Matlab, $\text{\LaTeX}$
- **Operating Systems:** Windows, Linux
- **Deep Learning Framework:** PyTorch
- **Language:** English (IELTS 6.5; CET-4 598; CET-6 493), Chinese (Native)

Awards

- **Outstanding Graduates (Awarded to the top 5% of graduates)**
Central South University
- **China Undergraduate Mathematical Contest in Modeling, First Prize in Hunan Province**
China Society for Industrial and Applied Mathematics
